RECRUITING WITH ETHICS

JOB OPPORTUNITY

Technicians

Bajada New Energy Ltd is an innovative company on the local market specialising and committed to providing energy saving/efficient solutions and a consistent leader in this ever-growing sector.

Due to increased workload we have several full-time vacancies for technicians with attractive remuneration package of up to €18,000-€23,000_per year.

We are seeking candidates who:

Are in possession of Electrical License A or similar qualification
Are able to work under pressure, both on own initiative and within a team
have a positive approach towards work
are able to communicate clearly in spoken Maltese or English
have a customer service approach that is both friendly and professional
work with good attention to detail

The work will involve delivery and installations of:

- domestic and commercial PV systems
- solar water heaters
- domestic RO systems
- basic electrical installation

Applicants must have at least 18 years of age, be in possession of a valid driving license to drive in Malta, be able to manage power tools, have an electrical educational background, mature and willing to adapt and learn innovative work processes. Training will also be provided. Candidates with previous experience will be preferred.
